Lund, Sweden, 18 April 2023

This is a translation of the Swedish press release published 2023-04-18

Neola Medical will attend the Pediatric Academic Societies Meeting 2023 in Washington D.C. in the end of April where study results from the Irish research team will be presented

Neola Medical AB (publ) will attend the Pediatric Academic Societies (PAS) Meeting 2023 in Washington D.C. in the end of April. The PAS meeting is an annual gathering for doctors, clinicians and researchers within pediatrics and neonatology to share the latest research. The research team from INFANT Center at University College Cork will present the results from a research study where Neola Medical's technology for continuous lung monitoring has been evaluated.

The annual Pediatric Academic Societies Meeting is arranged April 27 – May 1, 2023. The conference connects pediatricians and other care givers from across the globe and it is an important opportunity to meet an international audience of researchers, clinicians, and educators, as there are over a thousand participants from over 60 countries that will gather in Washington. The research team from INFANT Center at University College Cork will participate in the conference and has a poster presenting the results from a research study where Neola Medical's technology has been evaluated.

"I look forward to being in Washington D.C. for the PAS Meeting 2023. It will be exciting to see the Irish research team's poster presentation that is valuable to highlight the technology's potential for lung monitoring. The conference is also an important place for networking, where we have the possibility to meet clinicians and researchers within our field, and thus extend the company's clinical network further, before market launch.", says Hanna Sjöström, CEO at Neola Medical.

More information about the PAS Meeting

Pediatric Academic Societies (PAS) Meeting connects thousands of international pediatricians, clinicians, and researchers. It is an important meeting to take part of the latest research, both general and specialized, and the presentations cover a wide variety of areas. The PAS Meeting is a collaboration between four leading organizations within pediatrics and pediatric research: American Academy of Pediatrics (AAP), the Academic Pediatrics Association (APA), the American Pediatric Society (APS) and the Society for Pediatric Research (SPR).
